**NEWS FOR IMMEDIATE RELEASE****EASTBRIDGE ENGINEERING APPOINTS EHUD ADMATI AGENCIES AS AGENT IN THE STATE OF ISRAEL**

BOSTON, MA, USA – September 27, 2012 – EastBridge Engineering has announced the appointment of Ehud Admati Agencies Ltd. as their business development representative in the State of Israel. This announcement was made by Mr. Jack Daniels, president of EastBridge.

“We’re very pleased to be working with a firm with the history, reputation and experience of Admati Agencies,” stated Daniels. “They have earned a well-deserved reputation for their superior full service approach that has developed strong business relationships throughout Israel. Their technical expertise was built upon comprehensive technology and product training. Their professionalism and business development strategy align them with our growth goals for the region and our philosophy as a company.”

Daniels went on to say “The appointment of Admati Agencies will provide an enhanced level of service to our current clients in Israel and allow us to further promote our unique engineering services and accelerate growth in the region.”

Ehud Admati, the founder of Admati Agencies commented, “The key to our market success is understanding our customers’ technical needs and then providing them with solutions and support. Our background in the printed circuit board, semiconductor, system test and complex systems will drive this effort. We are quite pleased to be representing EastBridge Engineering. Their specialized engineering services and footprint in the Asia-Pacific region enables Admati Agencies to introduce an entirely unique solution to our customers in Israel.”
